To manage the complete setup of stores across India, you would typically look for companies that specialize in retail store setup, interior design, supply chain management, and project management. Here are a few companies and types of services you might consider:

1. FRDC (Future Research Design Company)

   - Services: Specializes in retail design, strategy, and implementation. They handle everything from concept design to final execution across various retail formats.

   - Reach: Pan-India presence with experience in setting up stores for major brands.

2. InstoreMasters

   - Services: Offers end-to-end store setup solutions, including store design, fixtures, branding, and merchandising.

   - Reach: They operate across India and have experience in handling both large and small retail chains.

3. Interior Designers & Fit-Out Contractors

   - Companies like Livspace for Business, Godrej Interio, or Hometown provide end-to-end interior design and store setup services. They manage everything from initial design to execution, including fixtures, furniture, and installations.

4. Retail Operations Management Firms

   - Companies like SS Supply Chain Solutions (3SC) specialize in supply chain management, logistics, and operations, which are crucial for setting up and running stores effectively across India.

5. Retail Project Management Consultants

- Firms like JLL (Jones Lang LaSalle) or CBRE offer project management services, including site selection, lease negotiation, and full project execution.

6. Turnkey Contractors

- Companies like Design Arc Interiors or Blue Interiors provide turnkey solutions for retail store setups, handling everything from design to execution, including MEP (Mechanical, Electrical, and Plumbing) services.

These companies have the experience and network to manage store setups across various regions in India, ensuring timely delivery and consistent quality. You can choose a partner based on the specific needs of your stores, whether it's a focus on design, supply chain, or overall project management.
